Professional Summary

Tech-savvy problem solver with a strong background in data analysis, system automation and full-stack development. Certified AI professional skilled in turning complex challenges into simple, scalable solutions. Known for bridging the gap between data and decision-making through smart, user-focused innovations.

Key Skills

- ☑ **Analytical Skills:** Expert in analyzing large, complex datasets to identify trends, patterns and insights using modern analytical tools.
- ☑ **Project Management:** Proven ability to lead and deliver project goals by coordinating teams for technical and non-technical tasks in scrums and cross-platform environments.
- ☑ **Software Development skills:** Capable of designing, developing, improving & maintaining information systems/applications.
- ☑ **Communication skills:** Effective presentation of complex data insights & solutions to both technical and non-technical audiences via audio-visual presentations via dashboards, slideshows & charts.
- ☑ **Problem-Solving:** Strong abilities in applying quantitative & qualitative techniques to solve complex & simple business problems and improve processes through digitisation and automation.
- ☑ **Attention to Detail:** High accuracy in data analysis and reporting, ensuring consistency and reliability.
- ☑ **Adaptability:** Quick to learn and apply emerging modern tools & technologies.
- ☑ **Teamwork & Collaboration**: Excellent in collaborating with team members and stakeholders, contributing valuable insights and feedback.

Achievements

- ☑ **Designed & developed several applications** in different economic sectors e.g. Parcel management information system (PostExpress); POS - Stock & Invoincing Management system (DigiServe); Data capture and prediction model for online casino games; Digitisation of a Clinic Management system. (CellCare).
- ☑ **Automated debt analysis reports** for Kenya Revenue Authority's Tax Amnesty Program, significantly improving efficiency from Jul 2023 to May 2024.
- ☑ **Participated in automation, data cleaning, ledger correction and migration** from an old legacy database to the new iTax system, enhancing data integrity in debt/revenue collection from Jul 2023 to May 2024.
- ☑ **Conducted comprehensive data analysis and reporting** for the VAT Nil & Non-filer project, leading to improved compliance rates and enhanced regular engagements with stakeholders from Jul 2021 to Apr 2023.
- ☑ **Designed, developed & maintained a data capture and analytical software** for Kenya Ports Authority – Medical department, optimizing data management & analysis processes from 2017 to date.

Professional Experience

Full Stack Engineer (Part time) | FarmFuzion Information System | Apr 2025 – To Date
Key Contributions
- ☑ Designed, developed and deployed a farm management information system
- ☑ Assumed role of system admin hence facilitation of system maintenance and upgrade

Affiliate Manager (Full time) | Secretbet | Jun 2025 – To Jan 2026
Key Contributions
- ☑ Poach for and facilitate recruitment of tipsters and social media influencers for brand promotion partnerships
- ☑ Facilitation of data capture and internal analytics for online traffic performance.

Full Stack Engineer (Part time) | System Guardian Android Django API Service |Apr 2025 – To Sep 2025
Key Contributions
- ☑ Designed, developed and deployed an Android APK tool that relays device logs to a remote server
- ☑ Debugging and remote implementation of upgrades through remote patching

Project Manager (Part time) | EVOTEX Digital Voting System Project | Jun 2024 – To Dec 2024
Key Contributions
- ☑ Coordinated development of a Digital Voting system
- ☑ Reviewed system's security, legal and policy compliance
- ☑ Organized and coordinated team members and stakeholders for the software launch.

Backend Engineer (Part time) | Enaton API Service |Mar 2025 – To May 2025
Key Contributions
- ☑ Offer requisite backend support
- ☑ Debugg existing and new bugs and facilitate requisite system updates

Network installation & Configuration (Part time) | Castle and Gardens | Dec 2024 – To Date
Key Contributions
- ☑ Design, installation and configuration of domestic and commercial network infrastructure
- ☑ CCTV system design, deployment, installation, and maintenance
- ☑ Structured cabling, conduit tracing, and laying of electrical and network cables

Full Stack Engineer (Part time) | Technothrone Solutions | Jun 2024 – To Date

Key Contributions

☑ Designed, developed and improved several hybrid applications & solutions. (Achievements section)

Data / Project Analyst | Kenya Revenue Authority - Data analytics | Jul 2021 – May 2024

Key Contributions

☑ Conducted detailed data analysis of daily Amnesty reports hence optimizing revenue streams.
☑ Streamlined staff Accountability report by collating, analyzing, and quality-assuring monthly reports.
☑ Updated Rapid Response Initiative report on a weekly basis.
☑ Assumed the Project Analyst role during the VAT Nil & Non filer debt project from Jul 2021 to Apr 2023.
☑ Conducted regular training to staff in data capture, analytics and reporting methodologies.

Founder/Director | Technofarm Agroforestry Project Ltd. – Corporate Management | Sep 2023 to date

Key Contributions

☑ Coordinate company operations.
☑ Assign roles, monitor and management of technical and none-tehnical staff during project operations
☑ Human Resource Management and coordination.

Full Stack Engineer (Part time) | Kenya Ports Authority, Medical Department | 2017 – to date

Key Contributions

☑ Designed and led development of a data capture and analysis information system.
☑ Led Quality assuarance, testing and deployment of the software.
☑ Assumed the role of the System Analyst during and after deployment of the system.
☑ Trained data clerks, nurses and senior management on using the software for different user levels

IT Technician / Instructor (Part time) | Compassion International, Deliverance Church - Kaloleni | 2017 – 2021

Key Contributions

☑ Taught Computer Competence skills to children, youths and elders.
☑ Performed regular hardware and software maintenance for all computerized devices within the premis.

Deputy Presiding Officer (Part time) | Indipendent Electoral & Boundaries Commission | 2017

Key Contributions

☑ Facilitation of voters during 2017 Kenyan National elections.
☑ Presided over Tallying, Submission and Declaration of votes after the voting process.

Voter Registration / Electoral Clerk (Part time) | Indipendent Electoral & Boundaries Commission | 2013

Key Contributions

☑ Electronic registration of Kenyan voters.
☑ Facilitation of voters during 2013 Kenyan National elections.
☑ Tallying of votes after the the voting process.

IT Manager | Rabai Mpya Cyber Café | 2012 -2019

Key Contributions

☑ Taught "*Introduction to Computer / Packages*" to children, youths and elders
☑ Performed regular hardware and software maintenance for clients
☑ Management of a local Cyber café at Rabai village – Kilifi county
☑ Designed & developed desktop apps for a Cyber café, an Asset & Inventory Management system, etc.
☑ Grapics design: Publication of invitation cards, ceremony programmes, Eulogies, bronchures, flyers, etc.
☑ Shooting, Editing & video Production of ceremonies like weddings, funerals, Public events, etc.

Education

Certificates in Project Management | Google | July 2024:

- ☑ Certificate in Agile Project Management
- ☑ Certificate in Foundations of Project Management
- ☑ Certificate in Project Planning
- ☑ Certificate in Project Initiation

Certificates in Data analytics, Data science & Visualisation | IBM | July 2024:

- ☑ Certificate in Data Analysis with Python
- ☑ Certificate in Data visualisation and dashboards with Excel & Cognos
- ☑ Certificate in Databases & SQL for Data science with Python
- ☑ Certificate in Excel Basics for data analysis
- ☑ Certificate in Introduction to Data Analysis

OCI Generative AI Professional Certificate | Oracle University | June 2024

Certificate in Excise Tax | Kenya School of Revenue Administration | June 2023

Certificate Refresher Course in VAT | Kenya School of Revenue Administration | December 2022

Bachelor of Sci - Integreted Forestry Resource Management | Egerton University | 2015

Kenya Certificate of Secondary Education | Olkejuado High School | 2010

Kenya Certificate of Primary Education | Acacia Crest Academy | 2006

Languages

- ☑ English - Proficient
- ☑ Swahili - Native
- ☑ French - Basic
- ☑ Rabai - Native
